We love Organic

Consumers around the world are becoming increasingly aware of the importance of healthy nutrition for the well-being of the whole body and for this reason we produce organic snacks that comply with the standards of organic farming.

Why flexible Packaging

At Italcastagne, we care about the wellbeing of the consumers and we are committed to providing only the highest-quality products. We are also perfectly aware about the ever more demanding and hectic society we live in and it is for this reason that we chose to pack all our products in handy **stand-up pouches** giving consumers the chance to enjoy our snacks right out of the bag or to use them as condiments.

Flexible packagings are easy to use and way lighter than glass jars and metal cans. Plus, our stand-up pouches offer **supreme protection** against light, gases and moisture that degrade the food and result in it being spoiled – thus lengthening product life and reducing food waste.

About Us

Italcastagne Srl was established in 2008. It's a young and dynamic company where product innovation and respect for the family traditions are still the most important points that guide the company towards new goals.

Our company has been supplying the biggest European large-scale retailers over the past 10 years, but since 2015 we have been specializing in distributing our ready-to-eat fruits and vegetables also to different food service sectors such as restaurants, bakeries and other food processing companies.

Italcastagne is BRC and IFS certified and it is registered for unannounced audits as of this year.
